

合わせて30になる計算

▶計算をすると**30**になるように四角に数字を書きましょう。

$12 + \square = 30$

$28 + \square = 30$

$15 + \square = 30$

$18 + \square = 30$

$20 + \square = 30$

$19 + \square = 30$

$22 + \square = 30$

$8 + \square = 30$

$29 + \square = 30$

$6 + \square = 30$

$11 + \square = 30$

$0 + \square = 30$

$10 + \square = 30$

$23 + \square = 30$

$30 + \square = 30$

$16 + \square = 30$

$2 + \square = 30$

$27 + \square = 30$

$24 + \square = 30$

$13 + \square = 30$

$25 + \square = 30$

$16 + \square = 30$

$21 + \square = 30$

$9 + \square = 30$

$1 + \square = 30$

$15 + \square = 30$

$13 + \square = 30$

$20 + \square = 30$

$10 + \square = 30$

$7 + \square = 30$

$19 + \square = 30$

$2 + \square = 30$

$14 + \square = 30$

$26 + \square = 30$

$17 + \square = 30$

$11 + \square = 30$

$19 + \square = 30$

$12 + \square = 30$

$4 + \square = 30$

$3 + \square = 30$

$5 + \square = 30$

$22 + \square = 30$

$28 + \square = 30$

$17 + \square = 30$

$12 + \square = 30$
